Objectives

I love to do work that represents intersections of art and science. Throughout my life and education I've pursued an undying fascination with technology, art, music, the internet, biology, mechanics, and electricity, as well as theory behind all these things and how they are all undeniably interconnected. One of my foremost interests is in invention and the exploration of concepts and themes that have not yet been figured out. I'm a motivated and technically proficient artist looking to do some next-level work for a good cause.

Key Facts

1. Curation and multimedia direction experience
2. Driven, open to new things, culturally aware
3. Have held same design client for 4+ years
4. Eagle Scout
5. Hard-working yet good-humored

Software & Skills

Photoshop	HTML/CSS	Wordpress
Illustrator	Arduino/Processing	Volusion
InDesign	Blender, Cycles	Microsoft Word,
Lightroom	Unity	Excel, Powerpoint
Premiere Pro	Cura	Windows and Mac

Work Experience

The Oregon Voice
Multimedia Director
September 2014 - Present

Digital imaging, layout design, copywriting and editing, team coordination, set due dates in a production environment. I self-organize and run art exhibitions of talented local artists at a DIY music venue that I also volunteer at.

Apollo Future Technologies
Graphic & Web Designer, Programmer, Publisher
February 2011 - Present

Digital imaging, web programming, and customer service work for startup company and two of its sister companies. Includes marketing work in designing advertising campaigns and advertisements, copywriting, product photography, and more. Started as their fourth employee, and they now have 25+.

Self-Employed
Graphic & Web Designer, Photographer
August 2007 - Present

Paid web design work for various clients. Includes setting up website software and custom domain name, applying content to the website, photography and image touchups, and extended support.

Family/various clients
IT Consultant
Jan 2006 - Present

Built computers from components, made repairs, provided phone support. Recommended and set up peripherals based on specific needs. Wirelessly networked a medical office, helped to make the office nearly paperless.

Education

University of Oregon | Bachelors of Science in Digital Arts | 2013 - 2015
Multiple Dean's List placements; featured on Digital Arts website

University of California, Santa Cruz | General Education | 2011 - 2013
Study focused on literature, social/economic/environmental responsibility, and art theory
